

RETHINK YOUR SMALL BUSINESS FOOTPRINT WITH SHREDSAFE CLEAN START®

THE 4 R'S OF A CLEAN START

- > **Reduce** your real estate footprint to lower costs or support downsizing
- > **Repurpose** offices and conference rooms into higher-value alternatives
- > **Reclaim** storage areas overrun with seasonal items, marketing materials and surplus furniture
- > **Recoup** storage space stuffed with outdated IT assets, unneeded office furniture and other equipment

Small businesses are the heart of our communities. It's hard to imagine them having a tougher time than during the COVID-19 pandemic. It's been a struggle and small businesses are worried about their future. Nearly 100,000 small businesses temporarily closed at some point and tragically some are now shuttered for good¹.

One of the top three expenses for any organisation is office space. Getting the square metre right is emerging as a key strategy to cut costs and put small businesses in a better rebuilding position.

To reduce expenses, many small businesses are considering the following:

- > Moving locations
- > Closing offices
- > Re-configuring current spaces
- > Allowing more employees to work remotely

We are here to help your small business through these changes. With ShredSafe Clean Start®, we'll evaluate your workplace and make recommendations on how to optimise your real estate investment. This can be accomplished by clearing out everything you don't need that's currently occupying valuable space, including paper records, file cabinets, old servers, PCs, IT assets, office equipment, cabinets and furniture. We manage the clean-out process from start to finish while facilitating secure storage, destruction and donation.

FROM PHYSICAL TO DIGITAL...

Beyond the physical removal or storage of items, we evaluate your current processes to provide actionable advice on how to improve records and information management moving forward. With ShredSafe Clean Start, you gain visibility into your records across locations along with recommendations on how to reduce compliance risk.

We also assess how you create, store and use information to help your business shift from physical to digital ways to work. We'll recommend tools to help improve efficiency and support your remote employees with anytime, anywhere information.

To make the physical to digital shift, ShredSafe can assist you with:

- > Active file management
- > Document scanning
- > Workflow automation
- > Cloud archiving

SHREDSAFE CLEAN START SUCCESS STORY

A financial services company needed to **cut office space in half**. They sought to reduce space by limiting their reliance on paper.

To accomplish this square-metres reduction, here is how our Clean Start solution helped:

- > **Designed** a new workflow process for file collection to store and manage active files in one central location
- > **Catalogued** paper records and moved them offsite to ShredSafe storage
- > **Securely destroyed** obsolete paper and IT equipment

HOW CLEAN START WORKS

ShredSafe conducts an **assessment** of your workspace and shares recommended areas for improvement.

You receive a summary of our **proposed improvements** to review and discuss internally.

We **execute** the approved plan.

FULL, FLEXIBLE MENU OF SERVICES

STORE RECORDS

ShredSafe professionals help you identify records for relocation to our secure off-site facilities where they are tagged, classified, tracked with RFID labels and easy to find through our ShredSafe Records Management web portal.

DESTROY RECORDS

Don't pay for storage you don't need. We securely destroy and recycle paper documents that have met retention requirements.

SECURE IT ASSET DESTRUCTION (Secure ITAD)

Avoid the chances of a data breach by having a clear strategy to securely destroy, recycle or repurpose media and other IT equipment that are no longer needed.

RELOCATE FILE ROOMS OFFSITE

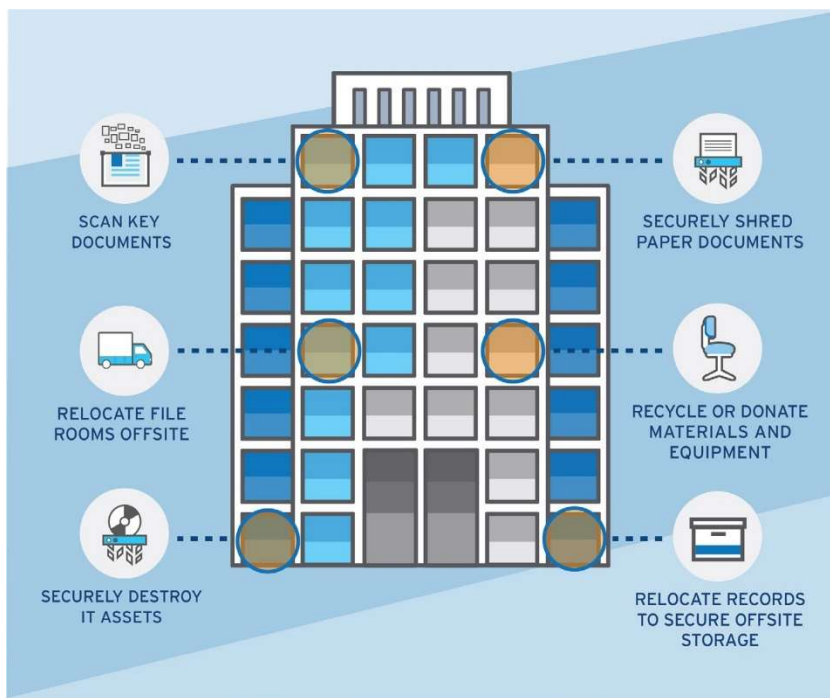

Offload the management of your file rooms to ShredSafe's experienced staff.

DIGITISE DOCUMENTS AND AUTOMATE WORKFLOWS

Our team works with you to create a document imaging solution and automate manual workflows like invoice processing to maximise your productivity

RECYCLE OR DONATE FURNITURE AND EQUIPMENT

We coordinate the disposal of office furniture, cubicles, IT equipment, supplies, artwork and other unused assets.

WHY SHREDSAFE?

- > Bestselling SMB Solutions
- > Dedicated account representatives
- > 24/7 Customer Service

WHAT YOU GAIN FROM AN SHREDSAFE CLEAN START
